

Ten Year Limited Warranty

We proudly stand behind our craftsmanship with a 10 Year Limited Warranty on all O-Series, I-Series and Group Housing products.

Recognizing the strength, durability and quality in the Calf-Tel line of products, Calf-Tel was the first to have a 10 year warranty for its calf housing units. Calf-Tel products stand the test of time. It's not uncommon to see Calf-Tel hutches, manufactured 25 years ago, still in use today.

Hampel, the manufacturer of Calf-Tel, is certified ISO 9001:2015, an international business standard adopted by numerous countries around the world. ISO specifies a process approach to improve effectiveness of a company's quality management system. Hampel's certification establishes quality processes ensuring the on-time delivery of the highest-quality parts and design solutions.
